HBL™
Making Seasons Bright!

Holiday decorating is one of the fastest growing professional services offered by irrigation contractors according to several national trade publications. Demographic trends like an aging population, two-income career families and a desire for a hassle-free lifestyle have driven the demand for professional decorating services at residential, commercial and institutional sites. We offer high quality, contractor grade lights, displays, greenery and accessories. What better way to add some additional revenue to your late Autumn and early Winter?

LED BULBS & CUSTOM CUT WIRE

These C7 and C9 bulbs have patented SMD Led Technology which means bulbs shine brighter & last longer! They are 40% brighter, sealed waterproof bulbs with a 50,000 hour life span. Install them with custom cuttable wire and your customer will be thrilled with their custom holiday design.

LED MINI STRANDS

LED Christmas light sets are the most popular light product on the market and we carry all the sizes and shapes you need. Holiday Bright Lights' patented, sealed bulbs are fully submersible and won't fail in the rain or snow. Mini strands are available M5, 5MM, C6 and M8 bulbs.

PRE-LIT GREENERY

Holiday Bright Lights offers three main categories of foliage that will be sure to please any customer: Mixed Noble, Noel, and Oregon Fir. Each category offers a different look and includes wreaths, garland, and teardrops.

LED LIGHT LINKS

Light Links will give any roofline an elegant holiday look. With many holiday designs to choose from, there are options to fit any style. Each Light Link has a four foot length, which makes them perfect for connecting end to end for easy decorating.

MEMPHIS
WOOD FIRE GRILLS

Memphis Grills take wood fire grilling to a new level, combining the great flavor of wood fire cooking with the ease and versatility of premier kitchen appliances. Fueled by 100% natural wood pellets, their exclusive one-touch ITC™ Intelligent Temperature Control automatically maintains the desired temperature just like an indoor oven. Meanwhile, one of three digital food probes can measure the internal temperature of food ensuring that it's done to perfection. There's even a free Memphis app to check or adjust temps even when you're away from home.
WOOD FIRE GRILLS

These grills use 100% natural wood pellets as fuel instead of the traditional propane or charcoal. It imparts a highly sought after flavor that enhances the taste of nearly everything you cook on it. A 20lb bag of pellets last just as long and costs about the same as a traditional tank of propane. They're 100% natural, healthy and more efficient than charcoal.

BEALE STREET GRILLS

Beale Street offers the versatility of the Memphis flagship brand at a price point that fits most budgets.

- Smoke, grill, bake, sear, and roast
- Convection oven cooking
- 180 to 550 degrees Fahrenheit
- Cooking surfaces 558 to 817 square inches
- Cloud based Wi-Fi
- 12lb pellet hopper capacity
- Cabinet for storage
- Open flame option

OUT DECO®

OUTDECO OUTDOOR DECORATIVE PANELS

OUTDECO Decorative Modular Panels are the key to transforming the style and character of your outdoor or indoor environment. Available in two sizes, three privacy levels, and a myriad of beautiful patterns ranging from natural to geometric. OUTDECO panels offer endless possibilities for outdoor and indoor installations. Choose these panels for many reasons:

1. **DURABILITY:** OUTDECO's unique hardwood board contains 97% fiber, making it termite resistant, more stable than natural kiln-dried hardwood timbers, and denser and harder than MDF. Their panels carry a 10-year limited warranty against material rot, bloat, or delamination.

2. **WORKABILITY:** The hardwood utilized in OUTDECO Decorative Modular Panel boards performs similarly to decking timber and can be trimmed and fabricated as per lumber. The core material of all OUTDECO panels is specifically engineered for outdoor vertical cladding and is easily mounted and installed.

3. **SUSTAINABILITY:** OUTDECO panel substrates contain none of the noxious synthetic additives found in other composite boards. Sourced from certified new-growth tracts and milled with no carbon footprint, the core of OUTDECO products is 97% hardwood fiber comprised of tailings and usable timber that otherwise would be wasted.

4. **DESIGNABILITY:** These panels can be repetitively 'tiled' in landscape or portrait configurations to create a variety of installation sizes and architectural effects. For an aesthetic that complements your space design, panels can be left unfinished to weather to their natural patina, or finished with a stain or paint of your choice

FOUNTAINS

J SERIES DECORATIVE FOUNTAINS

Kasco J Series Decorative Fountains give you the versatility, performance, and reliability you need. Ranging from 1/2HP to 7.5HP, there is a Kasco J Series Fountain perfect for any size pond or lake. Their corrosion and clog resistant technology offers reliability that is unparalleled by any other outdoor fountain brand. All J Series Fountains come with multiple nozzles that deliver elegant spray patterns.

VFX SERIES AERATING FOUNTAINS

Kasco VFX Series Aerating Fountains set the standard by which all aerating pond fountains are measured. These units deliver both superior oxygenation and aesthetic brilliance, making this a true dual-purpose fountain. As the leader in pond aeration, Kasco's VFX aerating fountains have been designed with their clog-resistant technology to ensure you are buying the most efficient unit on the market. Use the VFX Series in your pond, on the lake, in a landscaped water body, or even in industrial applications to help promote evaporation.

SUBSURFACE AERATION

Subsurface aeration can reduce pond muck, improve water quality, boost dissolved oxygen, eliminates thermocline and helps project fish in a pond. Aeration circulates and mixes water to eliminate stratified layers of warmer, surface water and the colder, deeper water, to create an oxygen rich environment throughout your pond.

POND DYE

Shade and protect your pond from powerful UV rays, while enhancing natural color and beauty with pond dye colarant. Airmax offers 4 shades: Nature's Blue, Aqua Blue, Twilight Blue, and Black DyeMond

- Available in liquids, packets, and bacteria enhanced.

LED LIGHT KITS

Add optional LED lighting for beautiful night effects. Low energy cost. Choice of colored lenses.

EASY TURF®
A **FieldTurf** Company

You may be surprised to hear about artificial turf in the Midwest - however, there are many applications for it here. And with EasyTurf, you know you're getting a high quality product. EasyTurf's UltimateGrass products have a proprietary, 100% permeable, non-absorbent backing. EasyTurf's backing drains 10 times faster than natural grass and better than any other synthetic turf surface available. Other turf surfaces can't effectively drain which can quickly leads to bacteria buildup and odor.
DOG RUNS

EasyTurf's artificial grass for pets contains innovative drainage capabilities, along with its realistic look and feel. Because of its artificial grass durability, EasyTurf has proven to stand up to the most challenging of pets and its low maintenance features make it easy to keep a beautiful, problem-free lawn last all year!

PUTTING GREENS

EasyTurf's putting greens deliver an authentic look and feel, giving you a true golfing experience right at home. EasyTurf is the highest quality provider of professional-grade backyard synthetic home putting greens, providing unparalleled realism in terms of surface quality and aesthetics.

PLAYGROUNDS

EasyTurf's artificial grass provides a surface that is safer, cleaner, and more comfortable than any other synthetic turf out there. It also greatly reduces threats from grass allergies, insects and unwanted pests. It has met fall height requirement tests for up to 12 feet, and is extremely durable yet non-abrasive.

HARD TO IRRIGATE AREAS

Around pools, hardscaped areas, and roof tops can be difficult places to irrigate and grass can be hard to maintain and keep green. These are areas where artificial turf may be a good option. Installation is easy and can save you a lot of work down the line.
